#### **Survey Camp at Nageshwar – Report**

1. Date of Event : September 21, 2017
2. Organized by : Civil Engineering Department
3. Conducted by : Dr. Narayan Chandak & Prof. Yusuf Sultan  
Mr. Mohit Kushwaha (Lab Asst.)  
Mr. Pankaj Bhadane (Lab Asst.)
4. Conducted for : B. Tech & MBA Tech III sem. ( II year)
5. Venue : Nageshwar near Shirpur

A survey camp were conducted for students of II year B. Tech & MBA Tech. Civil Engineering Department on 21<sup>st</sup> September, 2017 at Nageshwar, nearly 25 Kms. away from campus. In the camp, 37 students participated and were accompanied by 2 faculty members and 2 lab assistant. Main motive for this camp was to make students familiar with the field work, which is of prime importance for their overall understanding, to make them understand difference between theoretical and practical work and difficulties arising during field work. Before leaving the campus, students were briefed about the entire site and the work to be performed, by respected HoD, Dr. Narayan Chandak.

We reached the location at 11:00 AM and which seemed to be a location where survey work could be performed. Students were grouped into 3 different groups and one group leader was deputed for smooth conduction along-with one faculty/technician. Each group was given specific task and based on this they were given required instruments. The final aim of students was to find out the reduced levels (R.L.) of various points of given site. The team reached back in campus at 5.00 pm.

This was the first site experience for second year students. It was an exciting experience and students utilized the opportunity to grab the maximum knowledge, which also made them understand the perfect application of surveying on field.
