Co-ordinator/s	Jasleen Sahni
Name of Teaching staff	Prof. Sonia Relan, Dr. Shilpa Dawre
Brief Report on Activity	Atrangi, the art club of NMIMS Shirpur conducted an Independence Day themed exhibition on the 15th and 16th of August, 2022. The Director and the staff members were invited for the opening ceremony which was followed by the ribbon cutting ceremony. On day one of the exhibition, it was open for the faculty and for the members of the panel who were going to decide the winners for our previous competitions in the Art Buzz event. The Director was also invited to grace us with his presence. On day two, the exhibition was open for the parents of the incoming batch of 2022 and all the students of our college. The student lounge was beautifully decorated by the Artangi team with all the art and craft work of the participating students with the icing on the cake being the walls that the creative team had made. The students were excited to see their artwork on display and added on with the eagerness to know the results of the competition. Students got to learn how different people have different point of views, yet can come together to make something so beautiful and creative. Overall, the exhibition was a successful attempt at making people come together in harmony to celebrate the 75th year of Independence. We would like to thank the whole Atrangi Team, and our faculty in charge, Dr. Shilpa Dawre and Prof. Sonia Relan for making this event a huge success amongst the students and for overseeing the whole event.
